## Test Your Seed Grain Yourself.

Every careful farmer should thoroughly test his seed grain for strength of germination this spring. The serious adverse weather of last fall sprouted a large quantity of wheat in the stooks, thus rendering it very unsafe for seeding purposes this spring.

When the germinal in the wheat berry has once been awakened to life by moisture and heat, and has sprouted to even a small extent, and then is dried up again and shrivelled, it is practically totally destroyed. It is just like a newly created foetus, suddenly deprived of nourishment it dies and cannot be restored.

Every farmer can successfully test his own seed wheat or oats, or in fact any other seed which he wishes to sow.

Let him take a soup plate and place upon the bottom of this a piece of blotting paper and thoroughly wet this blotting paper. Then count out one hundred wheat grains from his seed pile just as they come, without any special selecting, and place these on the wet blotting paper. Any insurance company will furnish these blotters free of charge. Then place over these another piece of wetted blotting paper and keep this plate on the kitchen shelf where it will be kept at an even house temperature of say 65 degrees F. Keep the blotting paper wet at all times.

After four days count out the sprouted grains throwing these away, and marking down on a slip of paper the number of sprouted grains. This will give you the germination percentage after four days. If eighty grains are sprouted then your germination at four days is eighty per cent. Count the sprouted grains again at the end of ten days, and add these to your first count, then you have the germination percentage at the end of ten days' test. You may have another ten or twelve grains sprouted at this tenth day, which will give your grain a 90 or 92 per cent germination.

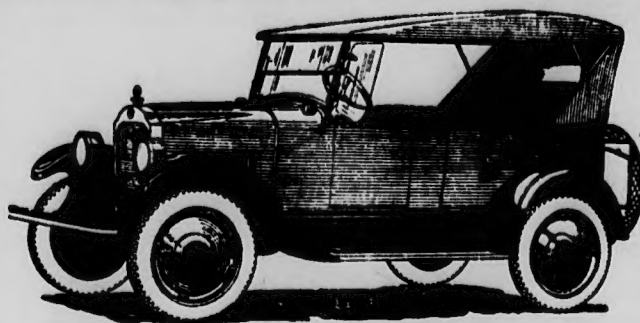

Do not select the plumpest kernels for this test, but take the wheat berries just as they come from the actual pile you wish to seed.

If it is desired to test a number of samples of grain, a row of saucers may be used and a long strip of flannel placed over these saucers and pressed down to the bottom of each saucer. Then allow each end of this strip of flannel to hang in a dish of water. The capillary action of the water passes the moisture throughout the whole length of the strip of flannel, thus keeping it constantly wet. Count out your one hundred grains into each saucer, cover each with another saucer and place on the kitchen shelf or in an even temperature for four days, when you proceed in your examination as before. Be sure to throw away all sprouted grains as you first count them so that you will not recount them the second time.

Every farmer can test his own seed safely and surely, a steady even temperature ensuring the greatest success.

J.R.W., Red Deer Advocate

Owing to the state of the trails, the attendance at Rugby school last Wednesday evening was not as large as usual, but a very pleasant evening was spent, and we hope the teachers will appreciate the sewing that was done for them. After supper, dancing was indulged in for a short time. Proceeds were \$23 with practically no expenses.

## THE NEW STAR FOUR TOURING CAR.

Incorporates the most advanced features of motor car design, finish and equipment. Low-hung, roomy and sturdy, it is the ideal general purpose car. **NEW CARS ARRIVED THIS WEEK.** COME IN AND ASK FOR DEMONSTRATION.

Paints, Oils Farm Implements

## DIDSBURY PASTOR FOR PEACE RIVER.

A very enjoyable social evening was spent at the home of Mr. and Mrs. E. Goudie on Wednesday, March 24th in honor of Mr. N. J. Archuk, pastor of the Nazarene church who was leaving for the Peace River country to open up a new work there. Simple entertainment suitable to the occasion, was provided. There were two readings entitled, "An experience on the frontier," by Mrs. Goudie; and "An Ordinary Preacher," by Miss Mae Oliver. After refreshments Mr. Archuk was presented with a gift in appreciation of his work here. The evening closed with a quartette, sung by Mrs. Goudie, Misses Mae Oliver and Dorothy Tuggle and Miss Mary Dyck who also acted as organist. Prayer followed by Mr. Thede.

All joined in wishing Mr. Archuk Gods richest blessings in his new field of labor.

## Westcott.

Mr. Conrad Konchuk is moving to town this week.

Mr. Denis Cassidy spent a few days in Calgary lately.

Miss Quen Byrt and the Vipond family spent Sunday at Mr. C. H. Rinehart's.

Mr. Harry Garry spent Sunday with friends in the Clovermount district.

Bruce Wilson of Calgary was visiting at Harry Brown's last week.

C. R. Ford spent a few days in Calgary last week attending the teachers convention.

On Thursday evening April 8, the young people of the neighborhood gathered at the bachelor quarters of Mr. Harry Steckly and spent a very pleasant evening in honor of his birthday.

Mr. Alex Robertson accompanied by a certain friend seemed to be taking this time the other night. There's nothing like the horses and buggy is there Alex?

In order to enlarge his business, Mr. John Widner has purchased a Ford Coupe. The horse trading isn't very brisk at present so he has added this new line.

We are sorry to hear the Brawne's hired man, who has been ailing for some time, was taken to a Calgary hospital recently.

The ladies of the district lived up to all expectations and put on a splendid program at the last club meeting. The supporters of the Negative won in the debate, the topic being "Resolved That the Mail Order Dept. House is a Benefit to our Province." Another brilliant item was a song composed by Mrs. C. Rinehart and sung by a group of girls. The next meeting will be on Friday night and will likely be the last for a month, so every body come out and help arrange for the continuation of the organization after seeding.

## BURNSIDE.

Mr. James McCulloch and Miss Mary Richardson spent Sunday with Mr. and Mrs. Sam Elliott.

We are sorry to hear that the 3 year old daughter of Mr. and Mrs. John Cook is ill in the Didsbury Hospital.

Mrs. Charles Mardon returned home last week, much improved in health.

The Lone Pine W.I. meets this Thursday, April 15th at Mrs. John Topley's.

## A Matter of National Concern

Canada unquestionably derives many advantages from its close proximity to the United States with its large population, marvellous industries, and great wealth. Many of these advantages are so self-evident that it would be a waste of time to even enumerate them. But, on the other hand, it is equally true that Canada suffers as a result of the very close and intimate relations which exist between the Dominion and its big neighbor to the south. These advantages and disadvantages are very largely confined to the realm of economics.

The subject is so large that volumes could be written on it, pro and con. Among the many phases or angles of the complex questions involved in this very large problem, there is one which is now the matter of considerable discussion in Canada, because, while it is economic in its origin, it contains within itself possibilities affecting the whole social, industrial and political life of this country.

In a sparsely settled, largely undeveloped country like Canada, with people spread thinly over half a continent, and with some sections having little in common, except sentimentally, with other sections, there is naturally lacking that community of interest, and resultant national spirit and consciousness, which animates smaller and more thickly populated countries. There is difficulty in the far eastern and far western Provinces knowing and understanding each other, while these far-flung sections are not even in very close touch and sympathy with the central Provinces, which latter are more or less self-satisfied and self-contained and lack understanding of both the east and west.

Hallifax and St. John are closer to Boston and New York than they are to Montreal or Toronto; Montreal and Toronto are closer to New York, Philadelphia and Chicago than they are to Winnipeg; Winnipeg is closer to Chicago and Minneapolis than to Vancouver or Victoria; Vancouver is closer to Seattle, Portland and San Francisco than to Canadian centres. Such is the geographical position which nothing can overcome.

One of the most effective means whereby Canadians could be made to know and understand each other better, and brought closer together, is through the medium of national publications, weekly and monthly magazines and periodicals. Valiant efforts have been put forth by public-spirited men and women to provide such media, but with indifferent success, considering there are nine million people in Canada. The reason for failure is not far to seek.

With a population twelve times that of Canada, United States publishers can develop enormously large circulations for their magazines. As a result they can command fabulous prices for advertising from the large and wealthy national manufacturers. With enormous revenues under their control, these publishers can command the services of the world's best writers, artists and illustrators. The result is they can turn out the most attractive magazines, and of a class and at a price which Canadian publishers in their more limited field cannot begin to approach. And, as Canadians desire the very best obtainable in magazines, as in everything else, these United States publications have larger circulations in Canada than our own Canadian publications.

What will be the ultimate effect of this flooding of Canadian homes with United States publications? This is a question causing much concern not only to many Canadians but to thoughtful students of affairs throughout the Empire and in other countries. Canadians are being constantly supplied with the narrow United States viewpoint on all international questions which these magazines present as seen through Uncle Sam's spectacles and as they affect the big republic. Canada is a member and loyal supporter of the League of Nations, yet our people are supplied daily, weekly, monthly, with open and veiled criticism and denunciations of the League. The United States' viewpoint is urged as the only right one, and all others wrong. We are fed upon the open disregard for law which prevails throughout the United States; we have hashed up to us the practical breakdown of the marriage tie and decent domestic relations which characterizes the social life of the United States today; we are inundated with stories of the coming bankruptcy of Great Britain and the breaking-up of the British Empire; and so on ad nauseam.

What will be the effect on the social life and political institutions of Canada if this keeps up for another generation or two? Is there any remedy that can be applied?

Canadian publishers believe that at least a partial remedy is possible, but that it must be applied in an economic way; that is, the remedy is not to be found in the arbitrary exclusion of United States magazines, but in providing a means whereby Canadian publishers will be given a reasonable chance to compete successfully with them through the production of Canadian periodicals more or less on a par from the standpoint of literary and artistic production with those from across the line.

As the subject is one which concerns all Canadians, it is proposed to examine further into the subject in a subsequent article.

By a high vacuum process, invented by a Swedish engineer, fresh cut lumber is now "seasoned" in a day or less, sufficiently for the carpenter's use. First Girl.—Wouldn't your mother be awfully angry if she saw you in that scanty bathing suit? Second Girl.—I should say she would. It's hers.

**Fletcher's CASTORIA**

**MOTHER:**— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

## Dominion Revenue Increasing

Figures Show Considerable Gain Over Preceding Year

Ordinary revenue of the Dominion increased by nearly twenty-nine millions during the eleven months ended February 28 last, as compared with the previous eleven-month period. The monthly statement issued by the department of finance shows total ordinary revenue for the eleven months of \$337,898,449 as compared with \$308,994,207 for the previous corresponding period. Ordinary expenditure is about the same as a year ago. On February 28 last it totalled \$276,629,417.

## What's Wrong With Canada

Here Are Some Facts For the Croakers To Study

Canada with her 9,000,000 people, has as much foreign trade as the United States had when she had 76,000,000 people, according to recent statistics. In addition, the Dominion is mining as much as the United States did with 38,000,000 people, and manufacturing as much as the United States did with 50,000,000 people. The Canadian per capita export trade today amounts to \$134, while in the United States it is only \$37.

## NEW BLOOD NEEDED IN THE SPRING TIME

Try Dr. Williams' Pink Pills As a Blood Improving, Health-Restoring Tonic

Every man, woman and child needs new, rich, red blood at this time of the year. That is a scientific fact. All doctors know it. The blood grows thin and poor in the winter; there is not enough of it, and spring shows the effect. Take notice and see how many people are pale and sallow at this time of the year. They complain of being easily tired, their appetite is poor, and they are often depressed and low-spirited. That is Mother Nature urging them to improve their blood supply; but often their digestion is weakened so that they cannot turn food into blood without help. Here is where modern medical science comes to the rescue. Dr. Williams' Pink Pills have a direct action on the blood and enable you to get full use of the blood-making elements in your meals. You soon feel their effect—your appetite improves, your nerves are steadier, color returns to the cheeks and lips, you have more vim and energy and can work with less fatigue.

The value of Dr. Williams' Pink Pills to all who are in what is known as a run-down condition of health is proved by the experience of Mrs. Alex. McKenzie, Schumacher, Ont., who says:—"I was in a completely run-down condition. Nervousness, sleeplessness, and loss of vitality were all taking their toll. I felt miserable all the time and began to feel that my case was hopeless, as I had taken a number of remedies with little or no relief. I had often read of Dr. Williams' Pink Pills, and finally decided to try them. I got a half dozen boxes, and by the time I had taken about half of them, there was no doubt I had at last found the medicine I needed to restore my health. I continued the use of the pills, gaining strength day by day, until I was soon enjoying good health and happiness. I strongly recommend Dr. Williams' Pink Pills to every man, woman or child who is in a run-down condition, feeling sure that the pills will soon restore them to health and strength."

Whether you are seriously ill or merely feel easily tired and out-of-sorts, you should try Dr. Williams' Pink Pills this spring. They are sold by medicine dealers everywhere, or will be sent by mail at 50 cents a box, by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10.00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

A grocer's clerk may not be as heavy as a dry goods clerk, but he always weighs more.

Minard's Liniment for colds

W. N. U. 1623

## Get back that lost weight!

When you start to waste away to a shadow, when the color leaves your cheeks and your poor, tired legs will hardly hold up your weakened body it's high time you started taking a fine tonic and builder like Tanlac.

Tanlac will build you up and make you feel that life's worth living. Made from roots, herbs and bark gathered from the four corners of the earth and compounded under the exclusive Tanlac formula, Tanlac is just what the poor, starved, body needs.

First of all it cleanses the blood stream and puts the digestive organs in order. You find, after a few days' treatment, that you want to eat. Pretty soon the welcome color steals back into your cheeks and the scales tell you that you're gaining weight. From then on it's only a short time until you're feeling fit as a fiddle.

Millions of men and women have taken Tanlac with great benefit. More than one hundred thousand people have written us glowing tributes to this wonderful tonic.

When you know it has worked wonders for so many folks it's folly not to take advantage of Tanlac's help yourself. Don't

Gained Health, Strength, Vigor, Weight

"Chronic indigestion made life unbearable for two years. I lost weight and strength and could do no housework. Tanlac put me on my feet. Gained 20 lbs. and now enjoy vigorous health again."

Mrs. Louis Calouette  
516 Marie Anne St.  
Montreal

put it off another day. Get a bottle at your druggist's now and start the good work right away. Take Tanlac Vegetable Pills for constipation.

## Decrease in Railway Accidents

Number of Fatalities Through Accidents is Also Less

A considerable decrease in the number of railway accidents and in the number of fatalities is shown in the annual of the Dominion railway board for the calendar year, 1925. During these 12 months there were 2,713 accidents on Canadian railways, in which 272 persons were killed and 2,955 persons injured, as compared with 2,834 accidents in the previous year when 318 persons were killed and 3,254 persons injured. Classifying these casualties, there were six killed in 1925 as against 17 in 1924; 76 employees killed, as against 107; and 190 others killed, as against 194. Crossings protected by some means accounted for 76 killed in 1925 and unprotected crossings took a toll of 294 killed and 1,161 injured.

During 1925 there were 889 fires originating within 300 feet of the railway lines, and these fires burned over 57,430 acres, destroying forest property valued at \$219,998 and other property valued at \$77,629. There were 36 public sittings of the board last year.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

If justice were really blind she would not be able to wink at her favorites.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Medieval monks who transcribed manuscript were exempt from labor in the field.

## Immigration Rush Begins

The week of March 15 saw the real opening of the spring rush of immigrants to Western Canada, when the Canadian National Railways transported during the week approximately 1,500 new citizens from the seaboard to Winnipeg by special and regular trains and thence to their final destinations on prairie farms and in British Columbia.

## Professional Nurse

Loud In Her Praises

Thanks to Dodd's Kidney Pills She Was Relieved of a Weak Back and Rheumatism

Mrs. E. Emeneau Now Recommends Dodd's Kidney Pills to Any of Her Patients Who Suffer with Kidney Trouble.

Lunenburg, N.S. — (Special). — "I cannot praise Dodd's Kidney Pills too highly to anyone. I have suffered a great deal with a weak back and rheumatism. I used a lot of doctors' medicines but they did me no good. I could hardly lift a patient alone. I was advised to try Dodd's Kidney Pills; used a number of boxes and soon got relief. I often thank the good friend who gave me the advice about Dodd's Kidney Pills."

"I was very much pleased that I did not have to give up my profession of nursing. I am bound to praise them for relieving me and will always recommend them to any of my patients who suffer from the same trouble as I did. I am very thankful to write this testimonial for Dodd's Kidney Pills."

This letter comes from Mrs. E. Emeneau (nurse) of Lunenburg, N.S., and tells of the benefits to be derived through the use of Dodd's Kidney Pills.

## The British Empire

The British empire includes over one-fourth of the land area of the earth, and about one-fourth of the world's population. That is to say, it contains about 463,000,000 people. Of these 58,778,900 are of British stock.

Genuine **ASPIRIN**

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago  
Pain Neuralgia Toothache Rheumatism

**DOES NOT AFFECT THE HEART**

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacettes-acetate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## WOULD LOWER CUSTOMS TARIFF ON AUTOMOBILES

Ottawa.—G. G. Coote, Progressive, MacLeod, Alberta, moved in the House of Commons his resolution that there should be a substantial reduction in the customs tariff on automobiles and motor trucks.

Mr. Coote submitted that owing to the lack of transportation in Canada, especially in the west, Canadian farmers should be able to buy more motor trucks and automobiles. Canada, he said, really ought to have more auto vehicles per head of population than the United States, whereas the ratio was lower in Canada. There could be only one reason why it was lower, he said. That was the high price of autos.

In the west, the average distance which a farmer has to haul his products was ten miles. Those who had much farther than this to take their products before they could be shipped to market, were surely entitled to greater consideration. Mr. Coote estimated that incidents of the customs tariff alone added \$305 to the price of every car in Canada. Besides this, there was the sales tax. Canadians also paid, on imported cars, United States excise duty of 5 per cent. All of this taxation, Mr. Coote said, imposed an entirely unfair burden of cost on the people who purchased cars. So far as the farmer was concerned, he said, a car was becoming a necessity and should not be taxed as if it were a luxury.

Almost everywhere one went there seemed to be a demand for reduction in the tariff on automobiles, Mr. Coote said.

Mr. Coote compared the prices of two makes of motor cars to show that increase in the Canadian price was from 38 to 42 per cent. over the American price.

The American manufacturer was taking advantage of the tariff. If you bought a car made in Canada the tariff went to the American manufacturer, Mr. Coote said. "This tariff is imposed on the Canadian people for the American stockholder," he said.

## Communists Reverse Attitude Toward Church

Anti-Religious Plays By Young Members Are Forbidden

Moscow.—Anti-religious plays and evening parties by members of the Young Communist organization are forbidden under orders just issued by the central committee of that body.

The committee says that such affairs are directed against the church and are calculated to irritate the feelings of church people, especially national minorities, and engender hatred of the members of the Young Communist party by the peasantry.

The reversal of the attitude of the Communists toward the church is considered significant.

### Keep Liquor From Youths

Tokio.—A nation-wide movement to prohibit the drinking of alcohol liquors by men under twenty-five years of age has been launched by eleven different bodies in Japan, including the Japan Temperance Union and the Women's Reform Society. Leaders of the movement hope the Diet will enact a bill raising the drinking age, which now is twenty years.

### Constable Is Acquitted

Calgary.—Constable Albert McKean, of the Drumheller town police force, was acquitted of a charge of manslaughter by a jury before Mr. Justice Boyle in the criminal section of the Supreme Court. The jury deliberated but three minutes.

### Athabasca Commission

Ottawa.—Hon. Mr. Justice Beck, of the appeal division of the Supreme Court of Alberta, has been appointed royal commissioner to investigate charges of alleged irregularities in the constituency of Athabasca, Alta., during the recent general election.

### B.C. Markets New Potatoes

New Westminster, B.C.—New potatoes, grown in the open, were marketed here by a Fraser Valley farmer and commanded a price of forty cents a pound.

W. N. U. 1623

## Saskatchewan Egg Pool

Commences Operations Under Most Favorable Auspices

Regina.—With six candling stations opened at Brandon, Weyburn, Regina, Moose Jaw, Saskatoon and Humboldt and 175 receiving stations in various parts of the province, the Saskatchewan Egg and Poultry Pool has commenced operations.

"Delivery of eggs at local receiving points has been heavy," said Ralph Brightly, general manager. Over 2,000 egg crates of the heavy export, lock-top variety, with best grade fillers and flaps and excelsior padding top and bottom, have been sent out to the receiving stations. About 6,000 of these will be used for transporting the eggs between local receiving depots and the candling stations.

Explaining the pool method of operation, Mr. Brightly said the producers will send their eggs in lots of three dozen or multiples of three dozen to the local receiving stations. The eggs will then be shipped in bulk to the candling stations and sold direct to buyers after they have been candled and graded. Remittance will be made from head office to producers about twice a month.

It is expected that about 400 receiving stations will be established shortly. At present the egg pool has over 12,500 contracts signed and the sign-up campaign is still proceeding.

## Radio In Lighthouses Would Aid Police

Member For Vancouver South Makes Suggestion In House of Commons

Ottawa.—Installation of radio receiving and broadcasting sets in Canadian lighthouses to assist in the arrest of criminals is suggested by L. J. Ladner, Conservative, Vancouver South, in a series of questions placed on the order paper of the house.

"Is it the intention of the department of marine and fisheries to equip Canadian lighthouses with radio receiving sets?" Mr. Ladner asks.

"Is the government aware that in the case of the big bank robbery at Nanaimo that the bandits were hiding in their launch close to the Portler Pass lighthouse; that the lighthouse keeper saw the said bandits' launch and also the police boat passing nearby, and not knowing of the said robbery failed to notify the police boat of the hiding place, and the bandits escaped, thereby involving thousands of dollars of public money in further search throughout Canada and the United States?"

"Is it the intention of the department of Marine and fisheries to install in certain of the more exposed lighthouses radio broadcasting equipment of sufficient range to communicate in case of emergency with large centres of population?"

## Trapper Killed By Grizzly

Found By Partner Within Mile Of Their Camp

Prince George, B.C.—Tom Meany, a trapper on the north fork of the McGregor River, 75 miles northwest of here, was killed by a grizzly bear within a mile of his camp, according to information brought here by Jack Yarreau, the dead man's partner.

Yarreau told the provincial police that Meany left camp to go over some traps and cut up the carcass of a moose previously killed. When he did not return Yarreau started to look for him. Within a half hour the body of Meany was found a short distance from the moose carcass, the face and top of the head being torn off. All around were tracks of a grizzly bear. Meany had been dead some time, but his hand still had a firm grip upon his axe. It is surmised he surprised the grizzly while feeding on the moose carcass and was attacked by the animal.

### B.C. Industrial Accidents

Vancouver, B.C.—During 1925 a total of 27,563 accidents occurred in British Columbia's industrial establishments, with 213 deaths, statistics made public by the Workmen's Compensation Board disclosed. Annual industrial payrolls of the province increased from \$130,000,000 in 1922 to \$160,000,000 in 1925.

### Arab Women Fight

Jerusalem.—Arab women are reported to have appeared in the ranks of insurgent Syrians, fighting against the French regime.

## WILL INTRODUCE PLAN TO SETTLE U. S. WAR CLAIMS

Washington.—The treasury's plan to pay immediately the \$190,000,000 in claims of United States citizens against Germany on its own account, trusting to a refunding by the collection of German reparations, was put up to Congress for approval in a bill introduced by Representative Mills, Republican, New York.

The programme provides for a full settlement of all war claims between Germany and the United States, including the return of property of German nationals held by the Alien Property Custodian and the payment of German owners of ships, radio stations and patents taken and used by the United States Government.

It authorizes the government to borrow the money necessary to make such payments and provides that all receipts received from Germany on account of reparations and the cost of maintaining the United States army on the Rhine shall be applied to a liquidation of this debt. The \$30,000,000 assuming interest from the money on deposit with the Alien Property Custodian prior to 1921 also will be applied.

## Dog Team Failed In Mountain Climb

Veteran Musher Battled Many Hours With Drifted Snow

Pinkham Notch, N.H.—The first attempt ever made to climb Mount Washington with a dog team failed because of a 70-mile gale which threatened to sweep driver and dogs from the mountainside.

Arthur Walden, of Wonalancet, veteran musher, reached the Halfway House on the mountainside after a battle of many hours with drifting snow and heavy winds. At that point, it was decided to abandon the attempt because of the gale. It was said to be impossible that the climb would be renewed this season as the weather forecast promised continued wind for several days.

### Opens Navigating Season

Quebec.—Making a passage for themselves through the ice-covered waters of the Louise Basin in the local harbor, two steamers, the Gaspe and the Guide, recently passed out into the St. Lawrence to the accompaniment of numerous sirens which signified that the 1926 navigation season had begun.

### Unemployed Defied Police

London.—Mounted police charged a crowd of several thousand unemployed demonstrators near Hyde Park, scattering them in all directions. The police acted when the demonstrators were attempting to form up in procession in defiance of police orders.

## Canadian Engineers Praised By Allenby

Pays Tribute To Work On Bridge Construction In Palestine

Montreal, Que.—Glowing tribute to the fighting qualities of the Canadian Bridging Battalion, the only unit from the Dominion under his command in Palestine, was paid by Field Marshal Lord Allenby, in an address here.

Lord Allenby described this practically unknown chapter of the war in the terse language of the soldier. "A horrible bit of work," as he termed it, was the time when this small body of Canadians, under Col. Linton, undertook to and succeeded in repairing the bridges which had been destroyed by the Turks in their retreat in September, 1918.

The Canadians, "all of them gallant fellows," built the bridges in the face of great difficulties, ninety per cent. of them were down with malaria, and the ticklish business of putting up the bridges was across a torrential stream with a fall of 2,500 feet over a distance of only a few miles.

"That," said the Conqueror of Jerusalem and Damascus, "is what the Canadians did in Palestine."

## Movement To Ban Undesirable Pictures

Advisory Commission of League Wants Children Protected

Geneva.—A movement, to protect children throughout the world from undesirable moving pictures was initiated by the League of Nations advisory commission on child welfare, which adopted a resolution for the creation of central censorship boards in each country, composed of educationists and parents.

The resolution stipulates that these boards should prohibit the presentation of films demoralizing to the mentality and morality of children.

## Livestock Show At Calgary

The Largest Individual Winner Was a Local Exhibitor

Calgary.—W. P. Fleming, Calgary, was the largest individual winner at the Calgary spring livestock show, when his entries were awarded first and second prizes for the best 15 finished steers, first for the five finished steers and first for the best 15 finished steers sired by a registered Aberdeen-Angus bull. Gorge Tait, Warren, Man., was first with the best five finished steers under 1,100 pounds. Special prize for the best carload of steers purchased at the Calgary stock feeder show was awarded to Paul Gabriel, Erskine, Alta.

### Another Conference Planned

Winnipeg.—Invitations to premiers of other Canadian provinces to attend a second inter-provincial conference on succession duties was issued by Premier John Bracken. It was suggested that the meeting be held either in Montreal or Toronto.

## CLAIMS OCEAN RATES ON CATTLE ARE EXCESSIVE

Ottawa.—Colonel H. A. Mullins, Conservative, Marquette, moved in the house that the "Canadian Government Merchant Marine should withdraw at once from the North Atlantic conference and should be operated independently of any conference, association or combine of steamship lines, with the sole object of conferring the greatest possible advantage upon the Canadian producer."

It had been brought out during the parliamentary investigation of ocean freight rates that the Canadian Government Merchant Marine "sat in" at meetings of the North Atlantic conference just as did the other steamship lines, said Colonel Mullins. He did not know whether the government vessels were still operated in conjunction with this combine, and he wished the government would inform the house on this matter. At any rate an excessive rate of \$20 per head for carrying cattle across to England still prevailed, and western cattle shippers were beginning to wonder if they would ever see it reduced. Why, he asked, would it not be possible to refit vessels of the merchant marine for carrying Canadian cattle? There were 21 ships of 8,000 tons each, which would be admirably suited for the cattle trade if properly refitted.

Hon. C. A. Dunning, minister of railways and canals, said that Colonel Mullins had not discussed the resolution itself. As a matter of fact, however, the resolution was "one year late." The Canadian Government Merchant Marine withdrew from the conference in February, 1925.

## Convict Ship Sails

The Last Convict Ship Afloat in the Twentieth Century

La Rochelle, France.—"La Marinere," the last convict ship afloat in this twentieth century of the civilized world, sailed recently for French Guiana carrying 340 lifers and long-term sentence men. It was the first shipload of convicts for this South American station in more than two years.

"La Marinere" was painted a weird combination of red, yellow, black and white and seemed to have emerged from the middle ages, until one convict, under stress of emotion, waving goodbye to his sweetheart, collapsed and died, bringing back the grim present.

## Soldiers' Settlement Act

Lengthy Debate Features Discussion Of Bill To Amend the Act

Ottawa.—A lengthy debate occurred in the House of Commons on a resolution preceding a bill to amend the Soldiers' Settlement Act by providing for the revaluation of soldier settlement lands. The debate was featured by an exchange of personalities between Right Hon. Arthur Meighen, Opposition leader, and Hon. Chas. Dunning, minister of railways. The resolution passed and the bill received first reading.

The fiery exchange lasted for about twenty minutes and the episode was warm and exciting.

### Deaf, Listens Over Radio

Ingersoll, Ont.—For the first time in 40 years, Mrs. James Allen heard organ music distinctly over the radio when a programme was being broadcast from a local station. Circumstances show an interesting coincidence, as the last music that Mrs. Allen heard before becoming deaf was organ music in England, more than 40 years ago. This is the second instance this year where local parties who had not heard a sound of any kind for years have heard music over the radio.

### Was Sister Of Pope Pius X.

Rome.—A lifetime of self-denying devotion to religion has ended with the death of Anna Sarto, youngest sister of the Pope Pius X, after two months' illness and a difficult operation. Anna, 76, was a spinster. She died almost in poverty in the tiny apartment facing St. Peter's Square in which she had lived for many years with Maria Sarto, now the only surviving sister of Pius X.

Miss Chu Chin Chow and the Chow Puppy

Little Miss Chu Chin Chow and the Chow puppy are all worn out from watching the wonderful white people on the Canadian Pacific liner Empress of Scotland, which in her tour of the world stopped for a short time at Hong Kong, where this little Chinese flapper made their acquaintance. She is look-

ing wistfully after the big ship as though she would like to see a little more of the great world to which she has been a visitor only a few years. Doggy Chow is not quite so yearning a figure. He guesses any part of the world is good enough for him so long as Miss Chow is within reach.

# Announcement.

By Imperial Oil Ltd.

## To the MOTORISTS of CANADA.

On the 20th of April we will be offering you a new motor oil which we sincerely believe is going to set aside all previous standards and introduce an entirely new era in Automotive Lubrication.

Marvelube is the name we have adopted for this new product—the nearest we could come in one word to signifying its marvelous lubricating qualities.

Marvelube is not the improvement of an old oil but the revolutionary discovery of a new. Its production involves system in refining.

Four years ago the scientists of our research department got on the trail of this new principle. Silently they have followed it ever since, testing, experimenting, perfecting, searching for the key that would unlock the ultimate. Last October they found it; and production mean time of an adequate stock to serve every motorist in Canada on the opening day, has been one of the closely guarded secrets of the Imperial Oil family.

Marvelube is a strictly Canadian triumph; the discovery of Imperial Oil scientists in our research laboratory at Sarnia, with no help from the outside world. For its base the ideal was found in a select grade of the world-famous Peruvian crude, the product of a far foreign field developed by Canadian genius and controlled by Imperial Oil Limited.

Its lubricating qualities will recommend Marvelube at once to every motorist who gives it a trial. You will find Marvelube on sale at every Imperial Service station and at the establishments of all good dealers on the 20th of April.

Fill your crank case once. We leave the verdict to you.

C. D. STILLMAN, President Imperial Oil Ltd.

### "Classified."

Read the classified columns of a newspaper. There you will find, as possibly nowhere else, the story of those struggling for an existence, the heartache hidden in a separation, pathos and tragedy curiously intermingled. There you will also find humor and entertainment.

"CLASSIFIED" contains all these elements and will both surprise and delight you in its startling developments.

\*\*\*\*\*

WEDNESDAY, APR. 21

### Wages for Wives.

FOR THE WIFE.

Remember you married your husband for better or worse. Maybe he is no bargain, but don't make him feel cheap in company.

FOR THE HUSBAND.

Don't expect her to keep dinner hot while you play an extra nine holes.

Comedies with both the above pictures.

Be loyal to your Home Town.

## AROUND THE TOWN

Whilst the green grass and the blossoming crocus of Spring time bring delight to the observant beholder, the state of the backyard may prove somewhat distasteful. Old tin cans and a winter's accumulation of rubbish are not objects of beauty and they certainly are not pleasing to the senses. A concerted effort on the part of householders during the next couple of weeks will give us a cleaner town, healthier surroundings, and possibly safeguard the family from sickness.

It's always as well to remember that disease lurks in a heap of rubbish. Fire it.

Jack Topley has bought a new Chevrolet from the Adshead Garage.

S. G. Watt spent the week-end visiting at Hanna and Drumheller.

Three cars of potatoes were shipped to Minneapolis from Didsbury on Tuesday.

Mrs. H. A. Bricker is spending a few weeks in Calgary with her sister of Mrs. W. Geddes.

Mr. and Mrs. J. Koch suffered the loss on Monday night, at the Didsbury hospital, of their three year-old child.

Last Tuesday, Mr. Gordon Witmer motored over from Three Hills and spent the day at the home of Mr. and Mrs. Allen Hunsperger.

Rev. A. E. Hayes will commence his ministry in connection with the United Church on Sunday evening next and will officiate at the evening service.

Mrs. W. Axtell, who has been enjoying a visit with her parents at Long Beach, Cal., for the past few months, returned home Friday of last week.

Elmer Plettner left on Monday night for Archbold, Ohio, where he had been summoned on account of the death of his mother.

G. H. Manhard and family left Didsbury for Calgary on Friday last. Mr. Manhard has leased a small farm near Calgary.

Mr. and Mrs. Buckler entertained a number of friends from town on Monday night to supper, and afterwards a pleasant game of cards was indulged in.

The mild weather of the past week has had the effect of drying up many of the roads, and a obvious tendency to increase auto traffic. Farmers too, are actively engaged in preparations for their spring work, and this week will witness some of them at any rate working on the land.

Flu, grippe and colds appear to be responsible for much sickness just now, both in town and country.

The early part of the week the illness of two or three of the teachers in town necessitated giving the children a holiday for a day or two. The attacks, however of the majority of cases, appear to be of a mild character, and it is hoped that with a little careful treatment none of them will prove serious.

Mrs. Will Finlay gave a most interesting talk at the Clovermount Sunday School on Sunday last, the attendance at which numbered about 65. Mrs. Finlay's remarks were confined chiefly to the missionary work done by her and her husband in Africa and were very much appreciated by all present. During the service a collection for foreign missions was taken up and realized the very satisfactory sum of \$8.50.

### BIRTHS

On Friday, April 9th, at the Didsbury hospital, Mrs. Paul Banzart, living north-west of town, of twin girls.

On Saturday, April 10th, Mrs. A. C. Fisher, of a daughter.

On Sunday, April 11th, Mrs. D. Rinehart, of a daughter, and Mrs. John Begner of a son.

## Reports on Canada's Crops

At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

## Funeral of Miss Bricker

The funeral of Hazel Beatrice, the young daughter of Mr. and Mrs. H. A. Bricker, of Didsbury, whose death was announced in last week's issue, took place on Friday last, the Rev. Herbison of Olds officiating. The pallbearers included Ernest Clark, Elwood and Elmer Evans, Russell Berscht, Arthur Reiber and Jack Pearson. The floral offerings were very numerous, including some from Calgary, where the deceased girl had during her residence made many friends, and necessitated a special car being obtained to convey them to the cemetery. Previous to interment, a service was held at the family residence, where the large attendance mutely testified to the popularity of the deceased as well as to the sympathy felt for the bereaved parents and surviving members of the family. Among those present were Mr. W. Geddes of Calgary (sister to Mrs. Bricker) with her husband, and Mr. Bricker's sister-in-law, Mrs. L. D. Bricker of Carstairs, who together with her family were present in the unavoidable absence of her husband. The loss now sustained by Mr. and Mrs. Bricker is accentuated somewhat from the fact that another daughter of theirs died at the early age of eighteen during the flu epidemic in 1918, and following shortly after this Mr. Bricker sustained the loss of his father, who died at Calgary the same year.

## CARD OF THANKS

Mr. and Mrs. H. A. Bricker and family desire to express their sincere appreciation for the kind sympathy extended them as well for the assistance so generously given in their recent bereavement.

## WHAT IS NEWS?

There is quite a lot of difference between news and advertising, says the Ottawa Citizen, but a newspaper has a hard time often in making some readers realize the difference. If a person has something to sell and wants the public to know about it, that is advertising. It is purely a business transaction with the one object of making money. An ice cream supper notice is not news—it is advertising. Because the money goes for a worthy cause does not make it any the less an advertisement. When there is no charge involved or money to be received from the event, the paper is frequently willing to tell about it as a matter of news. A newspaper must have advertising to live. That is one of its ways of getting money to pay the expenses of operation, and if it ran all advertisements free there would be no cash returns. But at that, the average newspaper gives away thousands of dollars' worth of space each year in helping promote civic affairs and is glad of the opportunity to be of service to the community.

The Alberta Legislature adjourned on Thursday, after an eight weeks' session, having cleaned up the business on the order paper.

It would have been possible to prorogue, but for the Natural Resources Bill, which cannot pass third reading until agreed on by the Dominion House. Premier Brownlee announced that the adjourned session would be held on May 5th or near that date, and that the election would be before July 15.

The Government brought in a bill on Tuesday taking out the rural sections of the Calgary and Medicine Hat municipalities, separating the city of Medicine Hat from the town of Redcliff from the rural sections, and creating the seats of Cypress and Empress. The number of seats is left at sixty as before.

## LUTHER BURBANK DIES

Santa Rosa, Calif., April 12.—Luther Burbank, withered by age, died here early yesterday amid the flowering fruits and blooms that he created for mankind's benefit.

The noted horticulturist passed on the great adventure of a hereafter in which he had no faith. Only a few weeks before the end he declared that he could not believe in a life after death.

And as his life ebbed away and he stood at the brink he did not falter in his convictions.

Infirm and worn after years devoted to developing and guiding plant life, the controversy started by his pronouncement on religion and reincarnation, contributed to his last illness.

A storm of protest came from religious leaders after Mr. Burbank gave out his statement de-

claring himself an infidel. His home here was swamped with letters and telegrams condemning his stand. The stress he was subjected to in defending and explaining his beliefs brought on a nervous condition that his 77 years could not survive.

A few minutes before life fled the aged patient lapsed into semi-consciousness.

"Oh, doctor, I am very sick," were his last words. They were uttered to his physician, Dr. Joseph H. Shaw.

Gastro-intestinal complications and violent hiccuping had weakened Mr. Burbank.

All hope for him was given up Saturday night, after a two weeks' fight by physicians to prolong his life.

At the bedside were his wife and his sister, Mrs. Emma Beeson of Healdsburg.

## HOPPER POISON CAUSE DEATH OF CATTLE.

C. E. Hollihan of Birdsholm, had some bad luck last week by losing 15 head of cattle that were poisoned by hopper bait left on the farm of Ralph Sifer, N.W. quarter 23-4-10; in 1913 Sifer lost seven head, and T. Hanerhan six head.

The police from Foremost were notified to look over the situation and found three sacks of poisoned bait in the Heathington buildings and two sacks in the Ross buildings.

Anybody knowing of any poisoned bait in old buildings better see that it is put in some old well as burning does not kill the poison; cattle have licked the ashes and have died from the poison.—Lethbridge Herald.

## NO PLACE LIKE HOME

Mid pleasures and palaces though I may wend, I find the home merchant a much valued friend. The mail order catalogue woos me in vain, for to buy without seeing gives me a pain. The home merchant credits till pay-day arrives; he knows all the whims of his friends and their wives. His overalls wear like the buckskin of old, his buttons ain't brass if he tells you they're gold. Of every community he is a part, and even the kids know the path of his heart.

He boosts for the chapel, the lodge and the school; community uplift is ever his rule. And even the football and basketball teams look kindly on him in their athletic dreams; I'd rather have him at my elbow each day than to deal with some one furlongs away. Let's make the thing mutual and stand by our friend; there's no place like home for the money we spend.

—Walt Mason.

### WORLD HAPPENINGS BRIEFLY TOLD

Lord Somers has been appointed Governor of Victoria, Australia, in succession to the Earl of Stradbroke.

A letter embodying a final appeal to Soviet Russia from the League of Nations Council to participate in the disarmament studies in Geneva was made public at Geneva.

Five thousand settlers are in sight for Canada this year under the land settlement scheme, according to Major John Barnett, chairman of the Soldier Settlement Board.

The development of an entire island by a single company for the purpose of increasing the production of pineapples is forecast by Honolulu business men who have visited the island of Lanai.

The dirigible to be used by Captain Roald Amundsen in his Polar flight has been formally christened "The Norge," and turned over to M. Thomsen, president of the Norwegian Aero Club.

The cost to Canada of sending Canadian troops to Siberia in 1918 and 1919 was \$2,823,960. Answering a question from J. S. Woodsworth (Labor, Winnipeg North Centre) in the House of Commons, the government said that the actual cost of the Siberian expeditionary force was not known.

### Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing the  
Sore Parts With

## NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 35c bottle of Nerviline. Sold everywhere.

**Displaces Flour Milling Industry**  
Canada's leading manufacturing industry is now the pulp and paper industry, having recently displaced the flour milling industry. The total value of pulpwood exported, pulp exported and paper manufactured in 1924 reached the sum of \$187,000,000.

Minard's Liniment used by physicians

Two pure white canaries, only one of their kind in Canada, were visitors at the annual show in Winnipeg, of the Western Canada Roller Canary Association and Winnipeg Bird Society.

**A Household Medicine.**—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Visitor (from town): Really, I don't care for men at all. Since I've been down here I've said "no" to four. Country Cousin: Indeed! What were they selling?

**TIRED FEET.**  
Bathe well with Minard's  
in warm water. It quickly  
soothes and draws out the  
inflammation.

**MINARD'S**

### Vodka In Russia

Demand For National Drink Is Increasing According to Government Report

Russia is developing an insatiable thirst for vodka.

Although the government within the last six months has more than doubled its output of vodka, it has been unable to meet the demand for the national drink.

According to figures announced, the government will produce 500,000,000 quarts of vodka during the coming year, which will yield the state about \$250,000,000 in revenue, or ten per cent. of the entire budget.

### BEAUTIFY IT WITH "DIAMOND DYES"

Just Dip to Tint or Boil  
to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

In Swing With The Mode

The flare coat is the newest mode of the season, introduced in Paris and accepted with enthusiasm on this side of the water. A coat that speaks the very last word in smart, swagger lines and material. It is necessary to have a wrap in which utility and appearance are combined, in these days of wide travel and of varied activities in social life. Fashioned of tweed in tones of tan and brown, the back is cut plain and falls in soft ripples from the shoulders. The collar is convertible and long revers fasten in single-breasted fashion with two bone buttons. Deep patch pockets have a tab trimming, and narrow cuffs finish the set-in sleeves. No. 1312 is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 bust requires 3 1/4 yards 39-inch, or 2 1/4 yards 54-inch material, with 3 1/4 yards 36-inch lining material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

### ON THE AIR

What Is Doing In the World of  
Radio

The radio equipment aboard the Leviathan provides for communication with points 3,000 miles distant.

The first broadcasting station in the Irish Free State has been built by the Marconi Wireless Telegraph Company in the McKee Barracks on the outskirts of Dublin.

The Evening Standard says that after three years of research, Sir Oliver Lodge, the eminent scientist, has solved the problem of the wireless "howler" or oscillator, which has baffled experts throughout the world.

Station WKRC, Cincinnati, O., has made plans for a new studio. The studio arrangement calls for a large orchestration studio, solo studio, a control office for operators, a private office for the studio director and engineer, a promenade, an artists' lounge and a large reception hall.

### BABY'S HEALTH IN THE SPRING

Can Best Be Guarded With  
Baby's Own Tablets

The spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Canadian Coal For Canada

Canadians see visions and dream dreams of a good time coming when the \$80,000,000 that go out of Canada for the purchase of coal in the state of Pennsylvania shall be kept in Canada. Canada's anthracite coal bill could be divided—40,000,000 for Nova Scotia coke and \$40,000,000 for Alberta coal.—Kingston British Whig.

The worms that infest children from their birth are of two kinds, those that find lodgement in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds, and while expelling them from the system serve to repair the damage they have caused.

### Early Seeding Operations

Winter records in Alberta went overboard when George Bedell, Taber farmer, sowed a field of alfalfa on February 8 last. The first wheat in Alberta was sown near Cardston on February 27th.

### She Could Never Do The Things Other Girls Did

Miss I. J. Ross, Scollard, Alta., writes:—"I am only twenty years old, but have suffered from heart palpitation and nerve trouble for several years."

I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work.

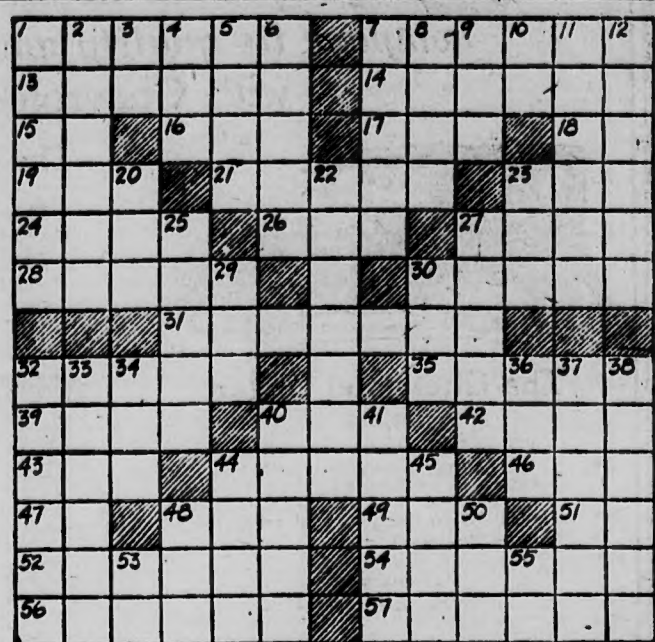

About six months ago I began taking

and am just twice the girl I was, and can enjoy everything in general life so much more. I am very grateful for what your Pills have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

### SUNDAY SCHOOL LESSON APRIL 11

#### THE STORY OF CREATION

Golden Text: In the beginning God created the heavens and the earth. Genesis 1:1.

Lesson: Genesis 1:1—2:25.

Devotional Reading: Psalm 33:1-9.

#### Explanations and Comments

I. God the Creator, verse 1.—The first verse of Genesis is the summary, and the remainder of the chapter the detailed account, of creation. There are three great thoughts in our text: (1) That the world did not come by chance, it had a Creator, God; (2) That God had a purpose in the creation of the world; (3) That the process of creation culminated in man, and God's purpose for him was that he should be in the image of God.

In the beginning, God. Before the mountains were brought forth, or ever thou hadst formed the earth and the world, even from everlasting to everlasting, thou art God, sings the Psalmist (90:2). In the familiar words of Watts:—

Before the hills in order stood,  
Or earth received her frame,  
From everlasting thou art God,  
To endless years the same.

Each thoughtful study of the opening words of Genesis but leads one to say with deeper meaning, firmer trust: "I believe in God, the Father Almighty, maker of heaven and earth."

II. Primeval Chaos, verse 2.—And the earth was waste and void; and darkness was upon the face of the deep. "The Hebrew words are an alliterative description of a chaos in which nothing can be distinguished or defined" (Professor S. R. Driver). Chaos is absence of order; darkness is absence of light. The deep is not the sea, but the primeval mass of water thought of as enveloping the formless earth. And the Spirit of God moved upon the face of the waters. Was brooding upon, is the marginal rendering of the Bible.

#### Externally or Internally, It Is Good.

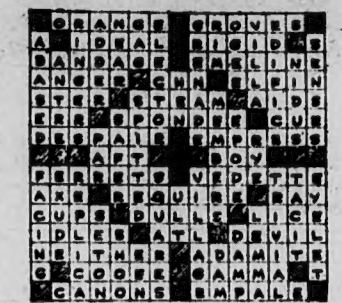

—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

#### Red Lake Gold Field

Claims staked in the Red Lake gold mining field are keeping the recorder's office busy. Prospectors are of the belief that the area from Red Lake to the Manitoba boundary is promising and already many square miles of territory west of Red Lake has been staked.

Minard's Liniment for sore throat

### Answer to Last Week's Puzzle

### Demand For Farm Lands

The larger dealers at Winnipeg report an increased demand for farm lands, and half-section transactions with one-third cash, as first payment are more numerous this spring than for many years. Some of the buyers are farmers desirous of extending their holdings, but many of them are Old Country people and newcomers from across the line.

### That Stomach of Yours!

—Mickelthwait Studio

Toronto, Ont.—"Dr. Pierce's Golden Medical Discovery is the very best medicine any one can take for stomach trouble and to build up the blood when it becomes thin and impoverished," said Mrs. Peter Sargent of 39 Cornwall St., Toronto, Ont. (Picture above.) "I suffered all the time from stomach trouble. My food did not digest properly, would set heavy on my stomach, causing me to suffer great distress. Food did me no good. My blood was impoverished and I did not have enough. But, after taking Dr. Pierce's Golden Medical Discovery my digestion was good and my trouble was at an end so far as my stomach and blood were concerned. The food I ate nourished my body and soon my blood was in a good healthy state."

At all drug stores, or send 10 cents to Doctor Pierce's Laboratory in Bridgeburg, Ont., for trial package.

ST. CHARLES  
EVAPORATED  
MILK

The milk that is always ready for your every cooking need.

Use it wherever the recipe calls for milk

**Extracting Helium From Air**  
British Firm Successful in Gathering Non-Inflammable Gas

Pure helium from the air has been extracted by a British firm. The company has employed a power engine, with a flywheel of huge dimensions, sucking in the atmosphere, to be afterwards separated into its various gases.

Helium is regarded as the one non-inflammable gas available for inflation of dirigibles. It is said that one might place a lighted match in a volume of it and the flame would be extinguished. In the case of airship explosions, as in that of the PC4 in America, it is claimed that but for the non-inflammable character of its gas every life would probably have been lost in fire following on the explosion that ripped the cover.

**After Every Meal**

It doesn't take much to keep you in trim. Nature only asks a little help.

Wrigley's, after every meal, benefits teeth, breath, appetite and digestion.

A Flavor for Every Taste

Joanna dropped the letter to the floor and rose. Her lips set into a line that was out of place against their pencilled contours.

"Now you're getting at it, Mr. Graydon," she exclaimed. "I thought there'd be a catch in it. What's the rest?"

The man only shook his head, rather sadly, as if he suffered a little before the spectacle of a girl, fresh and young and lovely, who must ever be on the alert for "the catch in it."

"There are no obligations," he said, still shaping his words slowly. "The stupendous gift is yours without conditions. Is that the word you would have me use; conditions?"

Before this rebuff Joanna again was speechless. Graydon went on: "You may not even ask a question. In return, none will be asked of you. It is possible that you shall never know the name of your benefactor. I know his reasons. I know the motives. But I may not reveal them to you. I may only say, and I hope you will have a little trust in me—that you need have no trouble and that there is nothing unpleasant about your mystery."

Joanna sank to her chair. "You mean," she persisted. "You mean that someone—someone I don't even know—has made me rich and that I don't have to—that he won't ask of me—!" She could not go on. All her reasonings, her wisdoms, her safeguards were beaten away as if they were futile things. She heard Graydon say what still maddened her because of the puzzle in it; because it left her helpless.

"You will not be asked to give—anything!"

The office door opened. Graydon had touched his buzzer and the secretary entered—the strangely soft mannered, unobtrusive girl in whom Joanna had first seen utter unattractiveness, but who had caused her to wonder, after a bit, if her own lips were not a little too scarlet.

On the girl's arm was Joanna's wrap and in her hand was Joanna's hat. It was the same fur wrap Joanna had thought to be in direful risk of the pawnshop when Graydon summoned her from the silk counter, presumably to her dismissal for some unknown offence. The hat was the one still unpaid for.

**THE STORY THUS FAR**

Joanna, pretty, modern, shop girl alone in the world, has never known anything but poverty and a desire for the luxuries of life. Her lips are lipstick red, her hair bobbed, her dresses short, but her heart is clean with all of her flapperish ways. She is summoned into the august presence of Graydon, her employer. She is expecting to be dismissed.

**CHAPTER II.**

**Into the Kingdom of Money**

For a long time Graydon silently looked down upon the girl who had swayed into the chair. She, too, was silent, motionless. The letter he had given her with the small, leather bound book, shook in her hand. She held it before her, an arm resting across her knees. Her eyes stared at the typed lines. Now and again she closed her lids tightly, shook her head ever so little, and parted her lids again, as if the words on the paper blurred before the fascination of her gaze and she had straightened them out by shaking the confusion out of her brain.

Once she let her hand droop, and kept her eyes closed for what might have been half a minute. Then, with a suddenness that seemed as if she were clutching at a shadow that she didn't want to fade, she brought the paper closer and read each line again, in frantic haste. As Graydon watched her the wrath of something very tender, and ineffable, hovered about his lips. Out of the eccentric pattern of the exaggerated type she represented, the excessively obtrusive "daughter of today," a new shape emerged. For the moment he

forgot the maelstrom that surged outside his office doors—the humdrum of bargaining in the great lavish floors of the department store. The girl, who was one of those who bargained, bargained with her wits against the purses of housewives; bargained the shimmer of her hair and the brown of her eyes and the curves of her lips against the world of which the crowds out there were a symbol, became a flower, a delicate, exquisite blossom that some irreverent hothouse trader had painted into a jaded taste of fools.

"Tell me," she pleaded, "What is it they're doing to me?"

The "Old Man," forgetting for the moment the fluctuations in the price of Manchester cotton and the season's demand for Highland plaids, pictured her as a rhododendron suddenly bewildered by a beam of sunlight breaking through a mist.

And then Joanna looked up at him. Doubts and confusion had gone from her face. It was lit with the fainting smile of one who had solved a riddle. "Somebody needs a doctor! Who's crazy, you or I?"

Graydon shook his head. "It's all very real, Joanna! You came in to me a while ago, a little lady of very small estate. When you go out again, you will be a veritable princess in a kingdom of money!"

Joanna crumpled back in her chair. She brushed her forehead with the back of a hand.

"Please, Mr. Graydon," she pleaded, "Don't make a fool of me."

The earnestness, the seriousness of the man who confronted her puzzled her, and sent her floundering for other words. He pointed to the paper she still held in her hand.

"Read it aloud," he said. "Perhaps the sound of it will help you."

After she had murmured her persistent doubt, "It says its from a bank!" she obeyed him, mechanically: "And it says," she began, "We have the good fortune to notify you that there has been placed on deposit with this institution, to your credit, the sum of One Million Dollars, in cash and securities, subject to your personal check and such other disposition as you may wish to make of these funds."

"We beg to say here, that this deposit has been made by a patron of this institution who has not confided to us the source of your funds nor the motives which have assembled them for you. We have not considered it necessary to enquire into these matters, because of the identity of the depositor, nor as to his reasons for the injunction upon us to not disclose his identity to you."

The girl faltered, and looked again at Graydon, who was watching her intently. The frown still wrinkled in her brow. Her eyes still groped. "You see," she argued desperately, "I told you—somebody's loose that ought to be in a hospital."

Graydon pointed to the paper shaking in her trembling fingers. She read for him the closing paragraph: "We are sending you, through your employer your bank book with an entry of your account. We are given to understand that Mr. Graydon will amplify certain remarks included above. We trust—"

Her voice droned off through the perfunctory assurances of advice and assistance. When she raised her eyes Graydon had dropped into his chair, across the table from her. She looked at him blankly.

Graydon spoke deliberately, choosing his words, as if conscious of his need to penetrate the understanding of the girl whose mind struggled against a portent that overwhelmed her.

"You may accept each sentence with complete confidence," he said. "The money is there, ready for you. Downstairs, at the curb, my own car is waiting to take you, and your bank book, to the bank. There you will sign your name, just a scratch of the pen, and the rest—"

He paused, and his fingers again played with the jade paper weight. In that slight pause Joanna—the Joanna whose philosophies were fruits of many wisdoms—thought she saw the thing that, for the time had been driven from her thoughts.

"She was right, after all! Only, it hadn't come in the way she expected. A pretty little play, with all its elaborate stage setting! A million dollars! A new kind of gesture made by some idiot who thought she wouldn't be 'wise' in time. A million dollars; then, 'the rest'!" And then the pompous gift of money recalled as laughingly as it had been craftily given! Ridiculous!"

Graydon spoke deliberately, choosing his words, as if conscious of his need to penetrate the understanding of the girl whose mind struggled against a portent that overwhelmed her.

**AVOIDED AN OPERATION**

Mrs. Dayman Gives Lydia E. Pinkham's Vegetable Compound the Credit

Colborne, Ontario.—"When I was first married I was very thin and weak. The doctor said I was weak and would never be able to have a child, but I did, and from the time my baby came I suffered all the time and doctored and took medicine. Life became a burden, and doctors said an operation could help me, but my husband was opposed to that. I had seen Lydia E. Pinkham's medicine advertised, so I told my husband that I thought I would try it, that I might get some relief.

I had not taken one bottle when I could feel it helping me. I took five bottles and had better health. Now I have three girls and a boy and have done my work up to confinement. I am now at the Change of Life and owe my good health to Lydia E. Pinkham's Vegetable Compound. I take a bottle when I think I need it."

—Mrs. SUSAN DAYMAN, R. R. No. 6, Colborne, Ontario.

Sold by druggists everywhere.

## Boys and Girls Swine Club.

The Provincial and Dominion Governments have co-operatively organized Boys' and Girls' Swine Clubs throughout the three Western Provinces. The Canadian Pacific Railway Company offers as a prize a trophy to each of three clubs on C.P.R. lines winning teams (members of Clubs using C.P.R. lines) will be taken to the 1926 Royal Agricultural Winter Fair at Toronto next November as guests of the Canadian Pacific Railway Company.

These three cups will be competed for each year, and each cup must be won three times by one club before it becomes the permanent property of the club. In recognition of the accomplishment of winning individuals members of team, medals will also be awarded annually to be retained by them.

Canada's position in the markets of the world as a profitable hog producing country will be governed largely, if not entirely, by the type of hog which Canadian hog producers adopt. The Canadian Pacific Railway Company has a practical demonstration to be the most effective teacher, and has decided to continue the award of these trophies for the purpose of further encouraging the production of the approved type of hog.

### RULES AND REGULATIONS

1. Each team shall consist of two boys, or a brother and sister, or two girls between the ages of 14 and 21 years, Sept. 1st, 1926.

2. All rules and regulations governing the swine clubs in the various Western Provinces must be obeyed.

3. All teams competing must take part in a judging competition and give a demonstration at a central point (or points) as may be decided by the committee in charge.

4. The competition will be held at or near the time the carload lot of hogs raised by the club are marketed.

5. District owners shall be determined on the following basis:

- 40% for general efficiency swine raising.
- 20% on judging hogs.
- 20% on the quality of the two hogs raised.
- 20% on a bacon hog demonstration which shall occupy not less than 20 minutes and not more than 30 minutes.

6. Teams selected shall be granted transportation to point in each province where the provincial competition is to be held.

7. Previous winners of the trip to the Toronto Royal Show are debarred from future competition.

## Crop and Stock Report

Winnipeg, Man., April 12. According to the agricultural department of the Canadian Pacific Railway, little or no work on the land has been done during the past week. Farmers were ready to commence operations in many districts, but the sudden change in the weather, with accompanying lower temperatures upset expectations. Weather conditions, however, improved towards the end of the week and in some parts of central Saskatchewan and southern Alberta seeding operations started in scattered areas. Also some plowing, disking and harrowing are being done. The land generally is in good condition and two or three days of warm weather should see the frost sufficiently out of the ground to permit a general commencement of work.

Due to the bad threshing weather last fall, grain in some districts of Saskatchewan and Alberta is not fit for seed and in view of the possibility of farmers putting in inferior seed, the provincial departments of agriculture have advised that the seed should be tested. Ample supply of good quality seed is available and will be used in districts where the seed does not pass a

satisfactory germinating test.

Reports received today indicate wheat seeding commenced at one or two points in south western Manitoba and south eastern Saskatchewan on the Napinka and Estevan sub-divisions.

Livestock generally is in very fair condition and has not experienced any shortage of food. However, the cattle market is not very promising to the feeder as compared with conditions last fall and those who have fed steers are somewhat discouraged at the returns, as prices have not made the expected advances.

MUNICIPAL DISTRICT OF MOUNTAIN VIEW NO. 310

Arrangements have been made with the drug stores at Olds and Didsbury and with the Mayton store to supply the farmers of the Municipality of Mountain View No. 310 with one package of gopher poison for every one purchased and paid for by the farmer and in addition a bounty of 1 1-2 cents per tail will be paid by the Municipality for Gophers caught within the Municipality. Tails may be handed to the councillors or overseers for checking.

A. Brusso, Sec.-Treas.

## ANNOUNCEMENT

The Auction Sale advertised for Wednesday, Thursday and Friday afternoon is CANCELLED in order to give our customers, that can only attend Saturday, the opportunity to get a share of all the snaps going.
